Professional Experience:

EasyPost | Product/UX Research Intern | Remote | June 2024 - *current employer*

Work with product and UX teams:

- Conduct internal, user, and competitor research
- Analyze data from findings
- Present key data and insights visually to foster understanding and interdepartmental buy-in
- Specific tasks include:
 - Organizing and managing UX research repository using Marvin
 - Creating and conducting user surveys via Userlytics
 - Conducting user interviews with current and target users, internal engineering and growth teams, etc.
 - Developing user personas
 - Creating organized spreadsheets/slide decks and present information to team members as well as other stakeholders

RWS Group | AI Language Model Trainer | Remote | June 2023 - September 2023

- Generate prompts to train an LLM on a range of subjects
- Review AI-generated responses and determine factual accuracy, grammatical correctness, and whether response exhibits appropriate tone and voice
- Rewrite AI-generated responses as needed

Heirloom Baking Company LLC | Owner | Denver, CO | December 2020 - June 2023

- Collaborate with diverse clients to conceptualize and deliver custom products
- Conduct user research and competitive analysis to inform design decisions and create custom products
- Create/manage content and run e-commerce on the company website and across various other platforms
- Successfully manage project timelines, scope, and client expectations to deliver high-quality products on schedule
- Translate client requirements into effective design solutions, balancing user needs with business objectives
- Build brand recognition and maintain brand voice across platforms
- Design, manage, and maintain company design system, website, and social media accounts

Fort Worth ISD | English Teacher | Fort Worth, TX | August 2017 - June 2021

- Design interactive and equitable learning experiences for students
- Analyze student data using information reporting and analysis software
- Conduct student testing and interviews, gather feedback, and adjust learning plans as needed
- Collaborate with team members via brainstorming sessions and design sprints to develop and document strategies and solutions aimed at optimizing student engagement and performance
- Organize and document meetings with teammates and other stakeholders

Moravia IT | Freelance Copywriter/Editor | Remote | June 2015 - August 2018

- Write and edit user-centered content for a global web mapping platform and consumer application
- Adhere to and assist with the creation of project-specific style guides

The Fedd Agency | Editor/Project Manager | Austin, TX | September 2013 - April 2015

- Manage self-publishing projects from start to finish and work closely with clients, marketing teams, graphic designers, printers, etc.
- Update client websites, optimize SEO, and use analytic software to track website traffic

- Provide substantive, line, and copy edits of client manuscripts to solve usability issues and optimize the user experience
- Provide copywriting for front and back matter on book covers, as well as marketing blurbs across various platforms
- Design book covers and interior files using Adobe Illustrator, Photoshop, and InDesign
- Typeset and create print-ready PDF files for publication according to printer specs

Fun Facts:

- I competed in a baking competition on the Food Network in 2023. (Christmas Cookie Challenge, Season 7 Episode 1)
- I had an Instagram reel go viral (over 13 million views) on my small business' Instagram page in 2023. ([@heirloombakingcompany](https://www.instagram.com/heirloombakingcompany))
